

# ArthroMed™

Supports Joint and Spine Health, Flexibility and Comfort\*

Contains Clinically Studied BCM-95® Curcumin and BosPure® Boswellia

ArthroMed™ is a proprietary formula that effectively promotes joint health and cartilage formation.\*

- Supports healthy cartilage structure
- Optimizes comfort and mobility in articular joints and spine
- In a scientific study, Devil's Claw extract increased hyaluronic acid synthesis in chondrocytes by 41%; hyaluronic acid is critical for joint lubrication\*

**Recommendations:** 1 to 2 capsules daily, or as recommended by your healthcare practitioner. If pregnant or nursing, consult a healthcare practitioner before use.

All ingredients established in human studies for safety and effectiveness. Does not interfere with stomach, liver or kidney function.

## ArthroMed™

Supports Joint and Spine Health, Flexibility and Comfort\*

CLINICALLY STUDIED  
**BCM-95®**  
**CURCUMIN**  
and **BosPure® Boswellia**

60 Capsules

**NON-GMO VEGAN** DIETARY SUPPLEMENT

**SUPPLEMENT FACTS**

Serving Size: 2 Capsules  
Servings Per Container: 30

Amount Per 2 Capsules (Veg):	%DV
Proprietary Complex	800 mg **

Containing Boswellia (*Boswellia serrata*) Gum Resin Extract (BosPure®) standardized to contain >70% Total Organic and Boswellic Acids with AKBA >10%, with < 5% beta-boswellic acids, Curcumin (*Curcuma longa*) Rhizome Extract (BCM-95®) enhanced with turmeric essential oil and standardized for curcuminoid complex (curcumin, demethoxycurcumin and bisdemethoxycurcumin), Devil's Claw (*Harpagophytum procumbens*, *Harpagophytum zeyheri*) Root Extract standardized to contain ≥ 20% harpagosides

\*\*Daily Value (DV) not established

**Other Ingredients:** hydroxypropyl methylcellulose (vegetable cellulose capsules), cellulose powder, silica, vegetable source magnesium stearate.

**No** sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or artificial preservatives.

Manufactured by a cGMP compliant facility exclusively for: EuroMedica 955 Challenger Drive Green Bay, WI 54311 866-842-7256 EuroMedicaUSA.com

ArthroMed is a proprietary formula that effectively promotes joint health and cartilage formation. It safely modulates major signaling and biological pathways of the body that influence joint mobility and health.\*

ArthroMed combines clinically-tested BosPure extract with BCM-95 Curcumin along with Devil's Claw.

The Devil's Claw used in this formula is unlike most other products. It is standardized at 20% harpagosides – a key component for the best benefits – where most other products are either unstandardized or only standardized for 2% harpagosides.\*

- Supports healthy cartilage structure
- Optimizes comfort and mobility in joints and back
- Clinically tested Devil's Claw extract increases hyaluronic acid synthesis in chondrocytes by up to 41%, which can enhance joint lubrication
- BCM-95 Curcumin absorbed better than standard curcumin for amazing support\*

### Strong ingredients that make a difference:

- **BCM-95 high-absorption curcumin** combines curcumin from turmeric (*Curcuma longa*) with turmeric essential oil for excellent absorption. Comparison testing shows it has better absorption and enhanced blood retention time compared to standard curcumin extracts and/or turmeric.
- **BosPure Boswellia (*Boswellia serrata*)** is clinically studied and uniquely standardized for 10 times the AKBA (acetyl-11-keto-β-boswellic acid) of unstandardized boswellia and virtually no pro-inflammatory beta-boswellic acid.
- **Devil's Claw (*Harpagophytum procumbens* and *zeyheri*)** is native to southern Africa. Devil's Claw has been shown to increase hyaluronic acid synthesis in chondrocytes, which can improve joint lubrication, by up to 41%.\*

These ingredients work together to support healthy cartilage structure, and improve comfort and flexibility.\*

## Frequently Asked Questions for ArthroMed™:

### Q. Can ArthroMed be taken with Curaphen®?

A. Yes, both **ArthroMed** and Curaphen can be used together. Curaphen is an excellent formula for providing immediate benefits, and **ArthroMed** can be used long-term for daily maintenance.

### Q. Why is the BosPure® Boswellia in ArthroMed screened to reduce beta-boswellic acid?

A. While most boswellic acids are associated with positive benefits, beta-boswellic acid is pro-inflammatory.

### Q. How does BCM-95® high-absorption curcumin in ArthroMed compare to other curcumin and turmeric products?

A. The proper product comparison is curcumin to curcumin. However, since many companies are comparing their curcumin absorption to turmeric, we provide this information as a service to our customers.

- Plain curcumin compared to turmeric delivers up to 50 times the curcumin as the same amount of turmeric.
- BCM-95 high-absorption curcumin delivers up to 10 times more curcumin into the bloodstream as the same amount of plain curcumin.
- Therefore, when compared **gram per gram**, BCM-95 high-absorption curcumin delivers up to 10 times more curcumin than plain curcumin and up to 500 times *more curcumin* than found in an equal amount of turmeric.

### What to pair with ArthroMed™:

- **Curaphen®** – Provides clinically studied BCM-95® high-absorption curcumin and BosPure® Boswellia blended with DLPA and nattokinase for pain relief.\*†

† Occasional muscle pain due to exercise or overuse
