

Sinutol™ Extra Strength

Supports Sinus Cavities and Soothes Mucous Membranes*

Sinutol Extra Strength is the right choice for extra-strong sinus support.*

It provides more intense levels of eucalyptus and myrtle than our regular Sinutol, plus the added power of lemon extract for increased sinus and immune support.* Combined in an enteric-coated softgel to eliminate burping or aftertaste, **Sinutol Extra Strength** helps provide support without drowsiness or jitters.*

Sinus, Bronchial, and Lung Support!*

- **Refreshing Eucalyptus** (*Eucalyptus radiata*) provides powerful compounds, including alpha pinene, and 1,8 cineole. It has long been studied and shown to support healthy, clear sinus passages.*
- **Strong Myrtle** (*Myrtus communis*) supports a healthy respiratory environment and, like eucalyptus, also provides alpha pinene and 1,8 cineole.*
- **Powerful Lemon** (*Citrus limon*) provides additional sinus and immune support.*

The concentrated ingredients in **Sinutol Extra Strength** support the cilia of the sinuses, which brush mucus out of the sinus and nasal cavities. The result is effective respiratory support comfort without drowsiness or dry nasal passages.*

- **Powerful, safe noticeable results you'll notice**
- **Does not cause drowsiness, jitteriness, or nasal dryness**
- **Enteric-coated softgel – no burping or aftertaste**
- **Supports both the sinus and bronchial airway passages***

Frequently Asked Questions for Sinutol™ *Extra Strength*:

Q. Why is Sinutol *Extra Strength* in enteric-coated softgels?

A. The concentrated eucalyptus oil is very powerful. Higher levels of eucalyptus (compared to our regular Sinutol supplement) require enteric coating for those who are sensitive to eucalyptus oil. The enteric-coated softgel allows the ingredients to be released in the intestines, rather than the stomach, to prevent any gastric discomfort, aftertaste, or burps.

Q. Can children use Sinutol *Extra Strength*?

A. The concentrated plant oil ingredients in **Sinutol *Extra Strength*** are very powerful. Because of this, one softgel a day is the suggested dosage for children ages 6-12. It is not recommended for use in children less than 6 years of age. Please discuss use of any dietary supplement with your child's health care practitioner.

What to pair with Sinutol™ *Extra Strength*:

- **Bio Active Essentials™** – Complete multivitamin with bioactive B-vitamins and chelated minerals.*
