Focus and cognitive strength during stress[^]

Accuracy and attention to detail

Healthy memory

Positive mood and mindset*

Mental Clarity and Focus – Even on the Busiest Days*

Cognitive Health Plus supports balanced brain chemistry, healthy neurological pathways, optimal blood circulation in the brain, and mental acuity and focus, even in the face of occasional stress.*

Brain Supporting Botanicals*

- **Greek mountain tea** is a prized botanical from the mountainous regions of the Mediterranean. For generations, it has been highly valued for its ability to support health and longevity. In recent years, this botanical has been clinically studied to support concentration, mood, memory, and overall resilience.*
- **Bacopa monnieri**, a long-trusted herb used in Ayurvedic practice, has been shown in clinical research to help people stay focused during times of stress.*[^]

Frequently Asked Questions for Cognitive Health Plus*

Q. Does Cognitive Health Plus contain caffeine?*

A. Greek mountain tea, unlike green tea (*Camellia sinensis*) does not contain caffeine. Like other botanical adaptogens, the energizing effects of Greek mountain tea are more subtle and work along different pathways, rather than being a direct stimulant like green tea.

Bacopa also doesn't contain caffeine. It simply helps support focus and concentration. Clinical research has found that a combination of both Greek mountain tea and bacopa can help people stay focused during times of stress, without making them feel jittery or nervous.*^

Q. Why not just drink this as a tea? Why take a supplemental form?

A. While Greek mountain tea is popular as a traditional beverage in the Mediterranean, one of its drawbacks is that the beneficial compounds in a tea form are highly variable. There's nothing wrong with drinking the tea, but a supplemental form is best for consistent benefits. Supplements are also commonly used in studies.

The main challenge for many people is that Greek mountain tea in supplemental form can be difficult to find, which is why we've developed **Cognitive Health Plus**—for convenient and reliable support, every day.*

What to Pair with Cognitive Health Plus*

CoQ10 100 mg Chewable

Delivers strong support for cognitive function, and features our exclusive GammaSorb®, which has been shown to boost the absorption of CoQ10 by 8 times compared to the standard CoQ10 forms.*

EurOmega-3®

Features bioidentical DHA/EPA omega-3 fatty acids, plus phospholipids that support brain function, mood, focus, and emotional well-being.*
