

EurOmega-3[®]

Salmon Omega-3 DHA/EPA

SUPPLEMENT FACTS	
Serving Size: 2 Tablets	
Servings Per Container: 30	
Amount Per 2 Tablets:	%DV
Omega-3 Phospholipid Peptide Complex	584 mg **
Featuring Phospholipids, Omega-3 [DHA (docosahexaenoic acid) and EPA (eicosapentaenoic acid)] and bioactive peptides extracted from Atlantic Salmon (<i>Salmo salar</i>), in a balanced ratio as found in salmon; not chemically altered or artificially spiked with DHA/EPA	
**Daily Value (DV) not established.	

Other Ingredients: microcrystalline cellulose, tricalcium phosphate, gum arabic, silica, hydroxypropyl methylcellulose, citrus (*Citrus limon*) essential oil, vegetable source stearic acid.

No sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial coloring, artificial flavoring, or artificial preservatives.

Recommendations: Adults: 1-2 tablets daily. **Children (6 years old and up):** 1 tablet daily. May increase as recommended by your healthcare practitioner.

NON-GMO
Product of France.

The only omega-3 supplement bound to phospholipids, with fish peptides

From North Atlantic Salmon, a premium source offering DHA/EPA

Phospholipids for better absorption and enhanced benefits

Stable delivery, not an oil

Never chemically altered or artificially spiked

Water and enzyme extraction

No fish burps

Real Omega-3s Produce Real Results

EurOmega-3 is a revolutionary product which delivers bioidentical DHA/EPA omega-3 fatty acids in a 2:1 ratio that are great for the heart and brain.*

Phospholipids: Crucial for heart, brain, and eye health.*

Peptides: Vital for mood, immune, focus, and overall health.*

Frequently Asked Questions for EurOmega-3®

Q. How does EurOmega-3 compare to fish oil?

A. **EurOmega-3** is not a fish oil product, and the numeric measurements between fish oil products does not apply to **EurOmega-3**. **EurOmega-3** is an extract of omega-3 fatty acids, phospholipids, and fish bioactive peptides from the head of the salmon. The DHA and EPA are in a 2:1 ratio. Much higher levels of DHA compared to EPA is exactly as it occurs in the salmon—and in the human brain. Studies have illustrated that absorption and utilization of omega-3 fatty acids are more important than sheer numbers. The amount of DHA and EPA in **EurOmega-3** is about what you would get in a serving of fresh salmon. Additionally, the ability to deliver omega-3 fatty acids without causing oxidative stress and damage to the body is a remarkable advance in omega-3 science.

Q. What is the difference between triglycerides and phospholipids in an omega-3 product?

A. In unrefined fish oil, the omega-3s are transported by triglycerides. Triglycerides are slow and inefficient carriers, and most people do not feel they need more triglycerides in their body. **EurOmega-3's** omega-3s are attached to phospholipids NOT triglycerides. Phospholipids have been shown in laboratory models and also in living systems to boost absorption. Additionally, phospholipids themselves have tremendous health benefits. Some of the phospholipids in **EurOmega-3** are phosphatidylcholine, phosphatidylinositol, and phosphatidylserine. The health benefits from **EurOmega-3** stem from phospholipid-bound absorption, the fish bioactive peptides, the bio-identical EPA and DHA, and from the phospholipids themselves.

Q. EurOmega-3 is one tablet a day, but are there situations where you can take more than one?

A. For healthy individuals who seek additional omega-3 supplementation, one **EurOmega-3** per day is sufficient. For someone seeking higher levels of omega-3s, we recommend 1 tablet twice daily. A dose of fish oil can be up to 9 capsules per day, or spoonsful of liquid oil, which can cause compliance issues.

What to Pair with EurOmega-3®

Curaphen®

Professional Pain Formula – A blend of enhanced absorption curcumin, uniquely standardized boswellia, DL-phenylalanine, and nattokinase for powerful benefits.*†

Essential Multivitamin

This complete multivitamin and mineral supplement delivers absorbable nutrients at meaningful levels that support optimal health.*

†Occasional muscle pain due to exercise or overuse.
