Breaks down proteins, carbohydrates, and fats*

Delivers 10X pancreatic enzymes

Alleviates occasional gas and feelings of fullness*

Taken between meals, relieves occasional muscle pain and supports exercise recovery**†

Enzymes are essential to our health because even with the best diets, nutrients from healthy foods must be absorbed in order to be useful. **Multi-Action Digestive Enzymes** provides your patients with an ideal combination for digestive and systemic support. It delivers undiluted, 10X pancreatic enzymes that mirror our own, plus plant enzymes for maximum efficacy, health benefits, and a full range of activity in the body.*

What Makes Our Product Unique

Pancreatin 10X: Undiluted, delivering 10 times the standard protease, amylase, and lipase activity so your patients get the most from their meals. When taken in between meals, pancreatic enzymes are also shown to support pain relief, overall muscle recovery, and systemic health.*†

Papain from papaya and **bromelain** from pineapple are enzymes that do double duty for both healthy digestion and occasional muscle soreness.*†

Trypsin and **chymotrypsin** digest and convert proteins into beneficial peptides and amino acids to help build muscle, brain, and nerve tissue, support healthy metabolism, and promote mental and physical well-being.*

Frequently Asked Questions for Multi-Action Digestive Enzymes

Q. When should my patients take Multi-Action Digestive Enzymes?

A. That depends on the benefits your patients are looking for. In cases of digestive support, you can recommend 1 to 2 tablets, three times daily before meals. For overall systemic support and relief of occasional muscle soreness due to exercise or overuse, you may recommend 1-2 tablets between meals on an empty stomach for the best results.*

Q. What does “10X” pancreatic enzymes mean?

A. The United States Pharmacopeia (USP) has set strict definitions for the level of activity for pancreatic enzymes, measured by how effectively each enzyme breaks down its targeted nutrient type. Pancreatin that is labeled as 10X is 10 times more potent than the USP minimum.

Less potent pancreatin has often been diluted with salt, lactose, or galactose. The best results for supporting digestion and systemic health come from full strength, undiluted pancreatin.*

What to Pair with Multi-Action Digestive Enzymes

BosPro™

Features up to 10 times more beneficial AKBA (acetyl-11-keto-β-boswellic acid) than unstandardized boswellia for powerful bronchial, cellular, and digestive support.*

FloraSure® Probiotic

Delivers clinical strength, non-dairy based probiotics for the relief of occasional gas, bloating, irregularity, diarrhea, constipation, and other digestive discomforts.*

[†]Occasional muscle pain due to exercise or overuse.
