Amazing Benefits for An Active Life*

Staying active and maintaining cognitive strength makes every day count. Including **PEA Healthy Inflammation Response** in your patients’ regimens can help.† It delivers wide spectrum support they’ll appreciate for many reasons.*

Synergistic Nutrients + Enhanced Absorption = Daily Vitality*‡

A healthy inflammation response is critical for physical and mental well-being.† These premium nutrients, combined with GammaSorb®, deliver amazing benefits for mind and body, every day.*

PEA (palmitoylethanolamide) is well known for its support of pain relief, healthy mood, cognitive strength, mobility, and exercise recovery.*†

Serratiopeptidase is a proteolytic enzyme that is incredibly useful for support of muscle recovery, microcirculation, and joint flexibility and comfort.*

GammaSorb is a plant-based material that binds to nutrients, making them more easily absorbed and bioavailable for optimal benefits. It has been shown to increase the absorption of certain hard to absorb (fat soluble) dietary ingredients. It is included in this product to help deliver benefits that support your overall health.*

Frequently Asked Questions for PEA Healthy Inflammation Response**

Q. For pain relief and recovery, should patients take PEA Healthy Inflammation Response before or after a workout?†

A. To potentially extend and get the most from a workout or other exercise, patients can take **PEA Healthy Inflammation Response** prior to any physical activity. However, your patients can also take this supplement immediately following a workout to support healthy muscle recovery and pain relief.*†

Q. If taking PEA Healthy Inflammation Response for mood support, how long before patients can expect results?†

A. Individual results vary with any supplement, but in a clinical study, some participants in the PEA group reported positive results in as little as two weeks.*

Q. Because of the enzyme serratiopeptidase in this formula, do my patients need to take this supplement at specific times around meals?

A. Yes, due to the proteolytic enzyme activity of serratiopeptidase, **PEA Healthy Inflammation Response** is best taken on an empty stomach at least 30 minutes prior to eating or two hours after finishing a meal.*†

Q. What does GammaSorb® (gamma cyclodextrin) do in this formula?

A. While PEA and serratiopeptidase are extremely beneficial nutrients, they can be difficult for the body to absorb. GammaSorb carries nutrients into the intestinal tract where they are more efficiently absorbed. In fact, this cone-shaped molecule has been shown to enhance the bioavailability of a wide range of difficult-to-absorb, fat-soluble nutrients.

What to Pair with PEA Healthy Inflammation Response**

CuraPro®	Delivers BCM-95® curcumin, featured in over 90 published studies and the most clinically studied, enhanced absorption curcumin in the world, for incredible support of optimal health and a healthy inflammation response.*†
Curaphen®	Our original pain formula combines clinically studied BCM-95® curcumin and BOS-10® boswellia with DLPA and nattokinase for exceptional relief.*†

†Occasional inflammation or muscle pain due to exercise or overuse.
