Healthy small intestinal bacteria

Upper respiratory and sinus function

Daily immune defense

Gastrointestinal health*

Thyme *plus* Oregano delivers a high level of safe, strong, and effective immune support that doesn't compromise intestinal or liver health, or cause drowsiness or jitters. The concentrated oregano and thyme oils are blended with extra virgin olive oil to support immune defense and healthy bacteria balance.*

Concentrated Thyme and Oregano

For generations, plant compounds have been recommended for immune support.* But getting effective levels of these valuable components may be difficult for your patients.

Thyme *plus* Oregano meets that challenge with its intensively concentrated key plant oils of thyme and oregano for immune-supporting strength.*

Concentrated plants oils are, as the name says, highly concentrated forms of the botanicals. This level of intensity means that smaller amounts of concentrated plant oils can be even more beneficial than standard extracts. It is also important to note that concentrated plant oils of thyme and oregano in this formula are especially designed for internal use, making them distinctly different than ingredients traditionally used in aromatic applications.

- **Thyme** provides support for respiratory function, healthy bacterial balance in the digestive system, and overall immune system wellness.*
- **Oregano** delivers targeted support for the digestive tract and helps keep the immune system healthy during times of stress.*^

These are botanicals your patients can count on.

Frequently Asked Questions for Thyme *plus* Oregano

Q. Can children use Thyme *plus* Oregano?

A. The concentrated plant oil ingredients in **Thyme *plus* Oregano** are very powerful. Because of this, one softgel a day is the suggested dosage for children ages 12 years and up. It is not recommended for use in children less than 12 years of age.

Q. Why use extra-virgin olive oil to encapsulate the ingredients?

A. These concentrated plant oil ingredients are carried in extra-virgin olive oil rather than the more commonly used canola oil (or other seed oils), because extra-virgin olive oil is an incredibly effective transporter of these botanicals and doesn't have the GMO concerns of canola oil.

Q. Can the softgels be chewed?

A. **Thyme *plus* Oregano** softgels were designed to dissolve after swallowing, but they can be chewed if desired. While this product was not formulated for taste or flavor, some people enjoy the experience of the potent herbal oils and chew the capsule before swallowing the contents.

What to Pair with Thyme *plus* Oregano

Andrographis EP80™ Extra Strength

Contains leaf extract to optimize the variety of compounds, including 80 mg of andrographolides in every capsule, for superior immune support.*

Quercetin *plus* Vitamin C

Delivers two of the most important immune-supporting nutrients in the world, for healthy histamine response, sinus and respiratory function, and overall cellular health.** Features our exclusive GammaSorb® delivery system for enhanced absorption.‡

†Supports healthy levels already within normal range. ‡GammaSorb has been shown to increase the absorption of certain hard to absorb (fat soluble) dietary ingredients.
